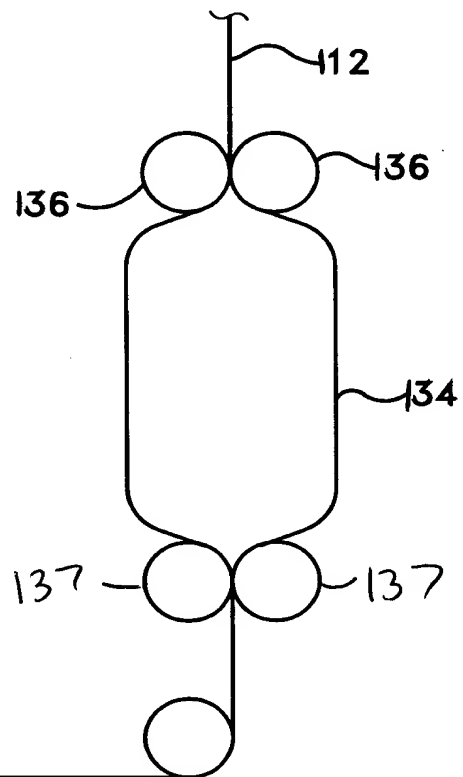

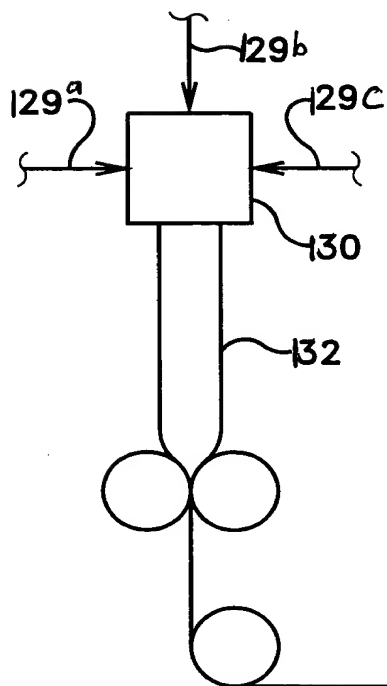

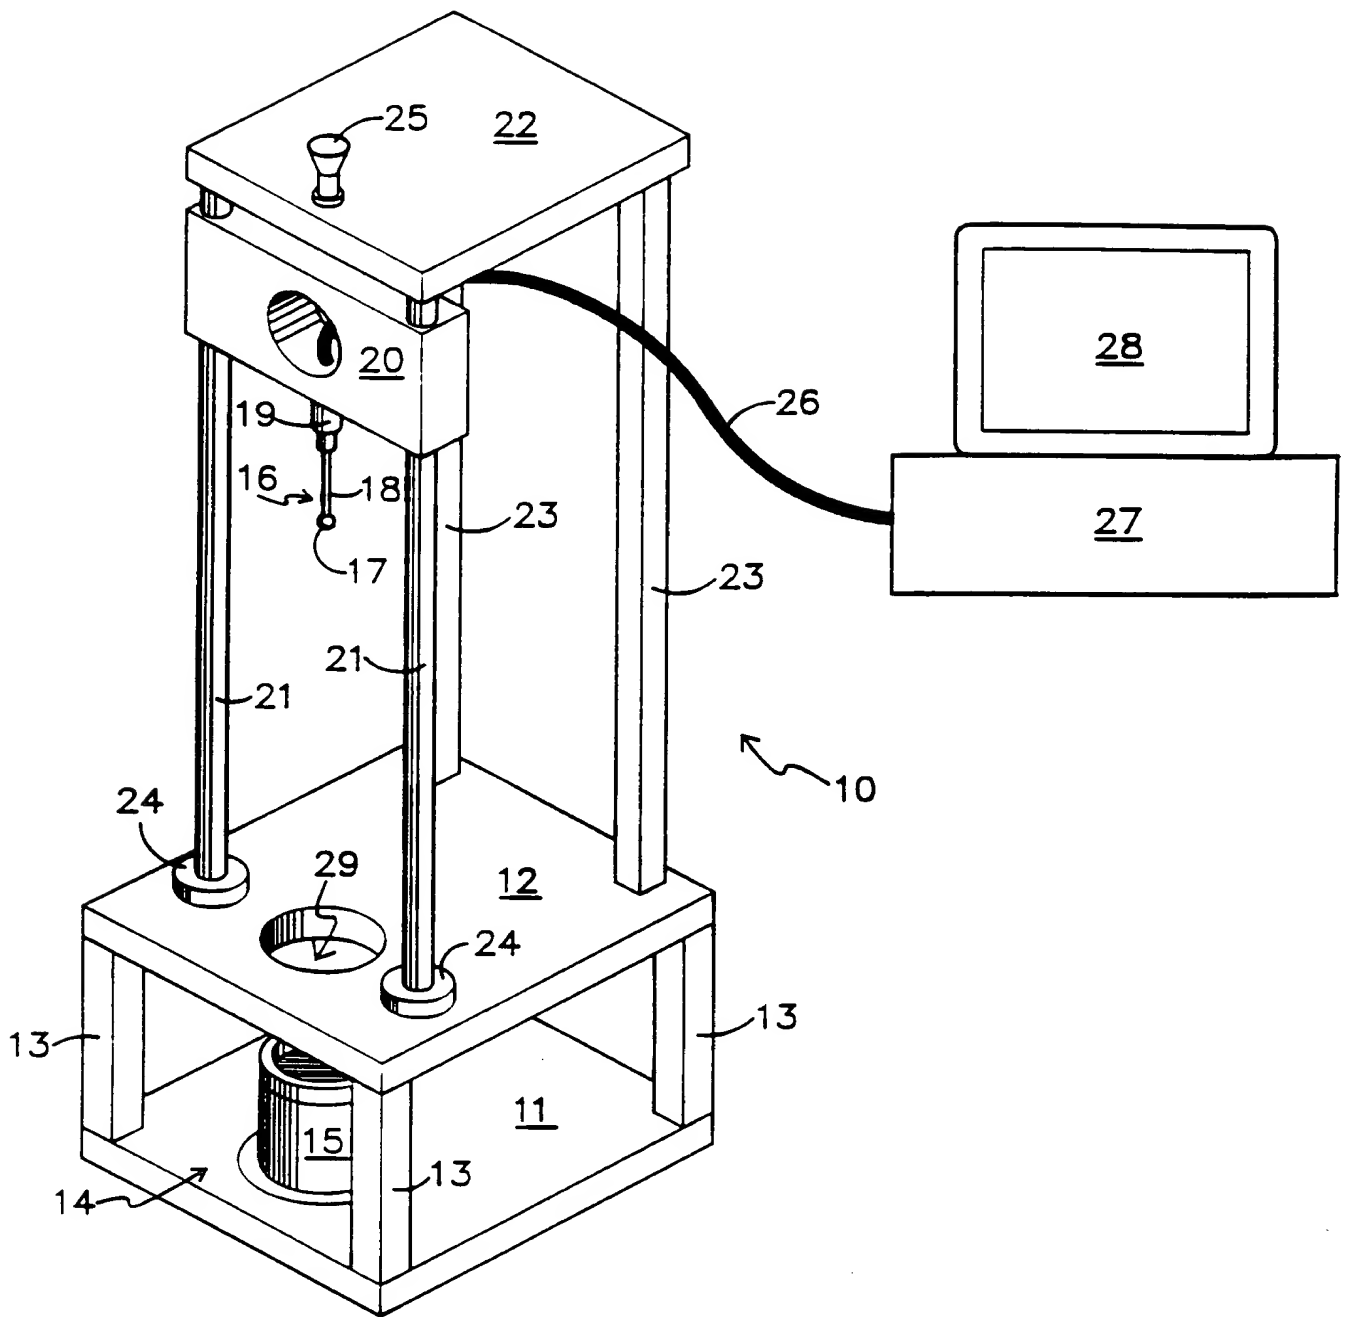

FIG. 3

Figure 1 shows a schematic diagram of a pair of opposing curved surfaces, labeled 40 and 41. Surface 40 is on the left and surface 41 is on the right. They are separated by a gap of width δ at their top ends. The surfaces curve downwards and outwards, then curve back inwards towards the bottom. The gap width δ is indicated by a horizontal double-headed arrow between the two surfaces at the top.
